

GENFARM METSULFURON 600 WG HERBICIDE

Version number: 1.0

Date of compilation: 28.02.2025

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name **GENFARM METSULFURON 600 WG HERBICIDE**
APVMA Approval 59514

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses Herbicide

1.3 Details of the supplier of the safety data sheet

Nutrien Ag Solutions Limited
Level 5, Building A; 26 Talavera Road
Macquarie Park NSW 2113
Australia

Telephone: (02) 9889 5400
Emergency telephone number: 1800 033 111

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Not classified as hazardous according to the Safe Work Australia criteria. Classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS). Classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (7th edition), IATA and IMDG/IMSBC.

Classification acc. to GHS

Hazard class	Category	Classification code
Hazardous to the aquatic environment - acute hazard	1	H400
Hazardous to the aquatic environment - chronic hazard	1	H410

For full text of abbreviations: see SECTION 16.

2.2 Label elements

Signal word Warning

Pictograms

Hazard statements

H410 Very toxic to aquatic life with long lasting effects.

Precautionary statements

P273 Avoid release to the environment.

P391 Collect spillage.

P501 Dispose of contents/container to industrial combustion plant.

GENFARM METSULFURON 600 WG HERBICIDE

Version number: 1.0

Date of compilation: 28.02.2025

SECTION 3: Composition/information on ingredients

Mixture of substances as listed below.

Description of the mixture

Mixture of substances listed below with ingredients not classified as hazardous.

Name of substance	CAS No	Wt%	Classification acc. to GHS
Metsulfuron-methyl	74223-64-6	50 – 70	Aquatic Acute 1 / H400 Aquatic Chronic 1 / H410

SECTION 4: First aid measures

4.1 Description of first aid measures

Following inhalation

Provide fresh air. In case of respiratory tract irritation, consult a physician.

Following skin contact

After contact with skin, take off immediately all contaminated clothing, and wash immediately with plenty of water. If skin irritation occurs: Get medical advice/attention.

Following eye contact

Remove contact lenses, if present and easy to do. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart. If eye irritation persists: Get medical advice/attention.

Following ingestion

Rinse mouth immediately and drink plenty of water. Keep at rest. Do NOT induce vomiting. Seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Inhalation of dust may cause respiratory irritation. May cause eye irritation, redness and tearing. Skin contact may cause mild irritation. May cause gastrointestinal irritation, nausea, diarrhoea and vomiting.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

Water, Foam, ABC-powder

Unsuitable extinguishing media

Water jet

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products include oxides of carbon, oxides of nitrogen, oxides of sulfur, and various other potentially hazardous compounds.

HAZCHEM (Emergency Action) Code: 2Z

5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Co-ordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Ventilate affected area. Prevent skin contact. Control of dust. Wearing of suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. Collection and use of expertise.

For emergency responders

Wear breathing apparatus if exposed to vapours/dust/spray/gases.

GENFARM METSULFURON 600 WG HERBICIDE

Version number: 1.0

Date of compilation: 28.02.2025

6.2 Environmental precautions

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it. If substance has entered a water course or sewer, inform the responsible authority.

6.3 Methods and material for containment and cleaning up

Advice on how to contain a spill

Covering of drains, Take up mechanically

Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Recommendations

- Measures to prevent fire as well as aerosol and dust generation

Use only in well-ventilated areas. Handle and open container with care.

Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool, dry and well-ventilated area. Keep container tightly closed. Protect from sunlight. Keep away from strong oxidising agents.

- Packaging compatibilities

Only packagings which are approved (e.g. acc. to the Dangerous Goods Regulations) may be used.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limit values (Workplace Exposure Limits)

Name of agent	CAS No	Identifier	TWA [ppm]	TWA [mg/m³]	Notation
Nuisance dusts		WES		10	i

Notation

i inhalable fraction

TWA time-weighted average (long-term exposure limit); measured or calculated in relation to a reference period of 8 hours
time-weighted average (unless otherwise specified)

8.2 Exposure controls

Appropriate engineering controls

General ventilation.

Individual protection measures (personal protective equipment)

Eye/face protection

Wear eye/face protection. Use safety goggle with side protection. Use protective eyewear to guard against splash of liquids.

Skin protection

- Hand protection

Wear protective gloves. Recommended material: PVC, PVA, nitrile, neoprene, rubber or vinyl. Wash hands and face thoroughly after handling.

GENFARM METSULFURON 600 WG HERBICIDE

Version number: 1.0

Date of compilation: 28.02.2025

Respiratory protection

In case of inadequate ventilation wear respiratory protection. Use an approved P1 dust respirator according to AS/NZS1716 standards.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	solid (granulate)
Colour	off-white
Odour	slight
Melting point/freezing point	approx. 158 °C
Boiling point	not determined
Flammability	non-combustible
Flash point	not applicable
Decomposition temperature	no data available
pH (value)	not applicable
Density	not determined
Water solubility	dispersible

SECTION 10: Stability and reactivity

10.1 Chemical stability

Stable under normal conditions of use.

10.2 Possibility of hazardous reactions

No known hazardous reactions.

10.3 Conditions to avoid

UV-radiation/sunlight. Keep away from incompatible materials.

10.4 Incompatible materials

Strong oxidising agents.

10.5 Hazardous decomposition products

Oxides of carbon, oxides of nitrogen, oxides of sulfur.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Classification acc. to GHS

Acute toxicity

Shall not be classified as acutely toxic.

Skin corrosion/irritation

Shall not be classified as corrosive/irritant to skin.

Serious eye damage/eye irritation

Shall not be classified as seriously damaging to the eye or eye irritant.

GENFARM METSULFURON 600 WG HERBICIDE

Version number: 1.0

Date of compilation: 28.02.2025

Respiratory or skin sensitisation

Shall not be classified as a respiratory or skin sensitiser.

Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

Carcinogenicity

Shall not be classified as carcinogenic.

Reproductive toxicity

Shall not be classified as a reproductive toxicant.

Specific target organ toxicity - single exposure

Shall not be classified as a specific target organ toxicant (single exposure).

Specific target organ toxicity - repeated exposure

Shall not be classified as a specific target organ toxicant (repeated exposure).

Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

Other information

The Australian Acceptable Daily Intake (ADI) for metsulfuron-methyl for a human is 0.01 mg/kg/day, set for the public for daily, lifetime exposure. This is based on the NOAEL of 1 mg/kg/day, the level determined to show no effects during long term exposure for the most sensitive indicators and the most sensitive species. (Ref: Australian Pesticides and Veterinary Medicines Authority, 'Acceptable Daily Intakes for Agricultural and Veterinary Chemicals', 2024).

SECTION 12: Ecological information

12.1 Toxicity

Very toxic to aquatic life with long lasting effects.

12.2 Persistence and degradability

Data are not available.

12.3 Bioaccumulative potential

Bioaccumulation is not expected to occur.

12.4 Mobility in soil

Metsulfuron-methyl has a higher mobility potential in alkaline soils due to increased solubility in alkaline conditions.

12.5 Results of PBT and vPvB assessment

Does not contain a PBT-/vPvB-substance at a concentration of $\geq 0,1\%$.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Sewage disposal-relevant information

Do not empty into drains. Avoid release to the environment. Refer to special instructions.

Waste treatment of containers/packagegings

Only packagegings which are approved (e.g. acc. to the Dangerous Goods Regulations) may be used. Completely emptied packagegings can be recycled. Handle contaminated packagegings in the same way as the substance itself.

Remarks

Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

SECTION 14: Transport information

UN number

ADG, IMDG, IATA

UN 3077

GENFARM METSULFURON 600 WG HERBICIDE

Version number: 1.0

Date of compilation: 28.02.2025

UN proper shipping name

ADG, IMDG, IATA

ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID,
N.O.S. (contains metsulfuron-methyl)

Transport hazard class(es)

ADG, IMDG, IATA

9

Packing group

ADG, IMDG, IATA

III

Danger label(s)

Special provisions (SP)

274, 331, 335, 375 (ADG)

Excepted quantities (EQ)

E1 (ADG)

Limited quantities (LQ)

5 kg (ADG)

HAZCHEM (Emergency Action) Code

2Z

Marine pollutant

yes (hazardous to the aquatic environment) (metsulfuron-methyl)

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Standard for the Uniform Scheduling of Drugs and Poisons (SUSMP) - Poison Standard

Not a scheduled poison.

Australian Inventory of Industrial Chemicals

All ingredients are listed or exempt from listing.

Australian Pesticides and Veterinary Medicines Authority

This product is registered with the Australian Pesticides and Veterinary Medicines Authority. APVMA approval number: 59514.

SECTION 16: Other information

Abbreviations and acronyms

Aquatic Acute	hazardous to the aquatic environment - acute hazard
Aquatic Chronic	hazardous to the aquatic environment - chronic hazard
CAS	Chemical Abstracts Service (service that maintains the most comprehensive list of chemical substances)
GHS	"Globally Harmonized System of Classification and Labelling of Chemicals" developed by the United Nations
PBT	Persistent, Bioaccumulative and Toxic
ppm	parts per million
TWA	time-weighted average
vPvB	very Persistent and very Bioaccumulative
WES	Safe Work Australia: Workplace exposure standards for airborne contaminants

Key literature references and sources for data

Safe Work Australia's Code of Practice for Labelling of Workplace Hazardous Chemicals (under WHS Regulations).

Australian Dangerous Goods Code.
